## **PLASTICS AND RUBBER INSTITUTE MALAYSIA**

---

The Plastics And Rubber Institute Malaysia (PRIM) would like to invite your company to become a Patron Member of the institute.

It is an opportunity to demonstrate your corporate support of the plastics and rubber industries and practical pledge to their future.

Over the last few years, the Malaysia plastics and rubber industries have expanded at a rapid rate and indications are that this trend will continue at a greater pace in the 1990's with the setting up of the petrochemical industry. Recently, there has been concern over the lack of qualified technologists, engineers and skilled operators in these industries. Perhaps, you share this anxiety and are suffering skill deficiencies in your own organization. No doubt, in common with the rest of the industry, you would support measures that improve the skills and professionalism of your own workforce on a continuing basis.

By becoming a Patron member of PRIM, and supporting our programme of activities, you will be playing a vital role in assisting in the development of a dynamic and prosperous polymer industry of the future; and industry which is undergoing an interesting phase of evolution with the advent of new and advance polymer materials and processes.

### **PRIM**

The Plastics and Rubber Institute Malaysia formed in 1983, evolved from the Institute of the Rubber Industry (Malaysia Section) established in 1962. PRIM is affiliated to the Plastics and Rubber Institute (PRI), United Kingdom, formed in 1975, by fusion of the Institute of the Rubber Industry (established in 1921) and the Plastics Institute (1931). The objective of the PRIM is to advance and develop the practice of all aspects of polymer science and technology in Malaysia and to service the professional needs of those working in the polymer industry.

Features of PRIM which are designed to achieve this objective include:

**Professional Membership.** The membership structure of PRIM follows closely that of the Institute of Materials, UK, and affords recognition of the various levels of professional ability.

**Publications.** Members of PRIM will receive the PRIMe Newsletter and those affiliated to the Institute of Materials, UK, will receive monthly Materials World from UK.

## PLASTICS AND RUBBER INSTITUTE MALAYSIA

---

**Awards.** A number of awards and a book prize sponsored by the industry are made each year to the best students in polymer science and technology, graduating from Malaysian institutions of higher learning, as well as PRIM's own diploma course. A number of prestigious awards are also made by the Institute of Materials, UK, each year, which recognise outstanding service to the Institute and industry and individual achievement in the polymer science and technology.

**Education.** In recognition of the need of qualified technical personnel, the Institute conducts plastics and rubber courses leading to the award of the Diploma of Plastics And Rubber Institute Malaysia.

**Seminars.** Seminars and talks on topical issues in polymer science and technology are regularly organized.

### **What do we want from you?**

Quite simple. We would like your company's support to ensure the Institute continues to be effective in its objective of helping to secure a successfully forward looking polymer industry with a skilled, professional and committed workforce.

We placed a high value on Patron Membership of the Institute. We believe that the annual subscription of RM250.00, although small will assist us considerably in achieving our objective.

### **How you benefit**

Patron Members enjoy similar benefits to individual members. They receive PRIME Newsletter free of charge. Employees of Patron members will enjoy preferential rates for attendance at meetings, seminars, conferences and exhibitions organized by PRIM. All these mean that Patron Members, through the activities organized by PRIM, will be able to keep abreast of the developments in the polymer industry which are so essential to corporate planning. Patron Members will be listed annually in the Annual report.

A strong Plastics And Rubber Institute Malaysia goes a long way towards ensuring a strong polymer industry.

### **How to apply**

Patrons are invited to apply by using the enclose form.

The Plastics And Rubber Institute Malaysia (1663)

20 Jalan U5/28 Panasuria, Mah Sing Integreted Industrial Park  
40150 Shah Alam, Selangor D. Ehsan

Tel : 03 - 7847 1034 Fax : 03 - 7847 1610

Website : www.prim.org.my Email : primy@prim.org.my

**APPLICATION FOR PATRON MEMBERSHIP**

1 Name of Company.....

2 Address

Office..... Factory.....  
.....  
.....  
.....

3 Telephone

Office..... Factory.....

4 Fax

Office..... Factory.....

5 Email .....

6 No of Employees.....

7 Chief Executive / Managing Director.....

8 Co.Representative..... Position.....

9 Nature of Business.....

We enclose herewith our first year membership subscription of **RM 250.00** together with this application payable to " **The Plastics And Rubber Institute Malaysia** "

Signature..... Date.....

The completed application should be sent to:

**The Honorary Secretary**  
**The Plastics And Rubber Institute Malaysia**  
**20 Jalan U5/28 Panasuria**  
**Mah Sing Integrated Industrial Park**  
**40150 Shah Alam Selangor D.Ehsan**
